

Supporting growers in their journey to bring quality organic produce to market.

Experienced in regional raw material sourcing, drying techniques, certification, inspection, storage, packaging, and logistics for export. This allows us to consistently deliver fresh & dried, organic produce to customers across Europe and Canada.

We specialize in the export of **100% organically grown** fresh mangoes and the processing of organically grown mangoes & cashew nuts into natural dry goods.

Why Us?

- Our fresh and dried products adhere to strict certification standards, ensuring you receive only the highest quality.
- Impressive annual production capacity of fresh and dried produce allowing our clients to meet the fluctuating supply needs of their customers.
- Our focus on sustainability and quality not only benefits our growers but also contributes to healthier communities.

Community

We are proud to employ 180 people, with 90% of our workforce being women, empowering them and contributing to gender equality in our community.

Join us at FASO GLOBAL

Together, we can cultivate a future of fresh, sustainable produce.
